Franklin Area School District: Petition Opposing Planned Parenthood Partner AccessMatters From Opening "Health Resource Clinics" in Venango County Schools

- What we know: 1.) AccessMatters was formerly known as Family Planning Council. 2) They are financially supported by Planned Parenthood. 3.) Their goal is to increase access to "sexual and reproductive health" – meaning contraception, chemical or surgical abortion and condoms. 4.) The clinics function as confidential drop-in centers at the schools -- meaning parents will not be informed as to what was discussed or distributed to their child. 5.) The counselors at the clinics are trained by AccessMatters. ***Please sign below to stop this assault on our children – you do not have to have children in school to oppose – you pay taxes!***
