LGBTQ and feminist groups have sued the US Dept. of State charging that the **Commission on Unalienable Rights** was created in violation of federal guidelines and must be disbanded. Senate unanimously passes \$2.2 trillion **coronavirus relief bill**, without all of Nancy Pelosi's pork. Unfortunately, some did make it in, but without the huge price tag

she had requested. Also, her nationwide universal mail-in balloting failed to appear. Two days later, House passed the bill by voice vote.

The coronavirus bill also includes regulatory flexibility and **\$13.5 billion for K-12**, but states and local officials already say more is needed!

US Supreme Court has ruled that **states can prosecute illegal aliens for identity theft**, including using false Social Security numbers to unlawfully gain employment.

Washington State has just approved a **pro-abortion, pro-LGBTQ+ sex ed plan** that will describe the sex act to 5-year-olds, teach 7-year-olds about sexual pleasure and sixth graders will be directed to a website featuring a how-to on anal sex! Is PA next?
